USER MANUAL

PETKIT FLITER UNIT 3.0

Usage reminders：

Install the cleaned filter into the drinking fountain, fill it with water and then plug in to work. After running for a period of time, if a trace of carbon power is found in the barrel, pour out the water and replace it with fresh one.(The selected filter material is food-grade coconut shell activated carbon, non-toxic and harmless. Please feel free to use for your fur babies.)

Usage period：

It is suggested that the replacement period should be 2-4 weeks, which is subject to the indication of the use environment and seasonal temperature.(To realize desired water filtration, it is suggested to regularly check the filter’s condition so as to timely replace it with a new one.)

* Note: The actual product may differ from the image shown due to continuous product improvements; the actual product shall prevail.

Cautions：

1.The filter component shell is made of PP, not edible. Please put it in a place uneasily accessible to children.

2.Putting the filter in boiling water is forbidden. Water temperature required:0°C-50°C.

3.The filter may have a small amount of carbon powder leakage due to transportation impact, which is a normal phenomenon without quality problems.

Specifications

Product name: PETKIT Filter Unit 3.0

Product code: P4161

Material: PP， Polypropylene Fiber, coconut shell activated carbon, ion exchange resin

Product Dimensions:140mm*140mm*12mm

Product Count: 5 PCS

Net Weight: About 1.52 ounce (43g)/Piece

Production Date: See the packaging

Shelf Life: 3 Years

Brand Owner: PETKIT Network Technology (Shanghai) Co., Ltd.
